Subject 2,4-D and DNA

Hi Elizabeth,

At the Triangle Lake meeting earlier this week, I mentioned a study about 2,4-D and reversible effects on DNA. My Internet connection is down so I sending this from my phone and cannot attach the article but here is the citation:

Biomarker Correlations of Urinary 2,4-D Levels in Foresters: Genomic Instability and Endocrine Disruption, Garry et al., Environmental Health Perspectives, Vol. 109, No. 5 (May 2001), pp. 495-500.

Thanks.

Bobbi Lindberg
